Reinforced Gummed Paper Tape

Features

- High strength kraft paper laminate reinforced with fibreglass for enhanced strength.
- Super high strength eliminates the need of nylon/steel strapping in most cases.
- Excellent for high security and tamper evident packages.
- User friendly dispensers available.
- Odourless adhesive.
- Available printed per customer requirement.

Waco's reinforced gummed tapes are made by laying fibreglass threads within a laminate of two layers of strong Kraft paper, suitably coated on one side with a special glue.

The resultant product is a high tensile strength gummed paper tape. This is essential for heavy duty packing and high security/tamper evident packing.

Eliminates the need of nylon/steel strapping in most cases, thus reducing cost of operations and material.

Standard widths available are 36mm, 48mm, 60mm and 72mm. The standard length of each roll is 100 mtrs.
